AMER. ZOOL., 29:1363–1366 (1989)

INDEX TO VOLUME 29

The index covers only the major papers, their authors, and the principal headings. It does not include the abstracts. For the latter there is a separate index to authors on pages 185A–195A. Minutes of business meetings, officers, and reports are entered only under American Society of Zoologists.

Abstracts, see note above.
  Index of authors, annual meeting, Boston, Massachusetts, 185A–195A.
  Of annual meeting, Boston, Massachusetts, 1A–195A.
ADAMS, MICHAEL A., CYNTHIA A. BISHOP, AND MICHAEL O'SHEA, Functional consequences of peptide cotransmission in arthropod muscle, 1321–1330.
ALBERTS, BRUCE M., Introduction: On the great excitement in cell biology, 483–486.
American Society of Zoologists,
  Committees, iv–v.
  Divisional officers, iv.
  Financial statement, viii.
  Minutes of annual business meeting, vii.
  Officers for 1989, iv–v.
  Presidents, iii.
  Sponsoring members, vi.
American Zoologist,
  Directions for authors, cover 1.
  Editorial board, cover 1.
  Statement of ownership, 196A.
  Subscriptions, cover 1.
ANDERSON, GARY AND NATHAN H. HART, Films and videotapes on cell and molecular biology, 667–670.
ANDREWS, HARRY, see LANG, JEFFREY W. *et al.*
AUGUSTINE, PATRICIA C., see DANFORTH, HARRY D.
AXIAL MOVEMENT SYSTEMS: BIOMECHANICS AND NEURAL CONTROL, 1–186.
  Axial locomotion in fish, 151–160.
  Axial motorpools, 123–137.
  Axial muscle: Fish and invertebrates, 5–18.
  Brainstem mechanisms for lamprey locomotion, 37–51.
  Introduction, 3–4.
  Kinematics of neck motor control, 139–149.
  Locomotion in amphibian larvae, 65–84.
  Locomotion in ray-finned fishes, 85–102.
  Mammalian locomotor-respiratory integration, 171–186.
  Neural control of escape turning, 103–121.
  Neurons in a frog embryo, 53–63.
  Spinal mechanisms for lamprey swimming, 19–35.
  Steering in locust flight, 161–169.
BAKER, JAMES F., see PETERSON, BARRY W. *et al.*
BARNES, ROBERT D., Diversity of organisms: How much do we know?, 1075–1084.
BAYNE, CHRISTOPHER J. AND TIMOTHY P. YOSHINO, Determinants of compatibility in mollusc-trematode parasitism, 399–407.
BEHAVIORAL NEUROMODULATORS: CELLULAR, COMPARATIVE AND EVOLUTIONARY PATTERNS, 1209–1357.
  Conclusions and speculations, 1355–1357.
  Cotransmitter in arthropod muscle, 1321–1330.
  Hormone effects on neurons and behavior, 1331–1344.
  Introduction, 1211–1212.
  Modulation in Crustacea, 1305–1320.
  Modulation of the *Limulus* heart, 1287–1303.
  Neuromodulation of nociception, 1345–1353.
  The neuromodulatory response, 1275–1286.
  Neuropeptides in the Cnidaria, 1213–1225.
  Peripheral actions of SCPs, 1265–1274.
  RFamide peptides in leech, 1227–1239.
  SCP_B in slug regulatory responses, 1255–1263.
  Serotonin and leech feeding, 1241–1254.
BENSON, KEITH R., Biology's "phoenix": Historical perspectives on the importance of the organism, 1067–1074.
BIOLOGY OF THE CROCODILIA, 821–1054.
